What are carpet tiles

Carpet tiles are specially designed squares of carpeting that are made to lockdown in a similar way to standard carpet flooring. Some of the tiles adhere to the floors using glues, while others are nailed or stapled down. This carpet flooring option is designed to go down easily, and it's often used with different colors blended together in checker or mosaic patterns to create more unique looks. While not everyone likes the look of carpet tiles, it's a strong type of carpet flooring that's coming back in style today.

The advantage of carpet tiles

If you're looking for a quick and easy to install type of carpet flooring, tiles are the perfect way to go. When it comes to carpet installation, tiles are one of the best products on the market. They go down very quickly and easily and are designed for simplicity. Since carpet flooring tiles are designed to be small in size, they are easy to carry and to position wherever they are needed. This is much simpler than carrying around large rolls of roll-out carpet varieties. Carpet tiles go down faster during carpet installation than other carpet flooring types as well, and it doesn't take as much skill to ensure that the floor looks smooth and even.

- Cost and time savings
- Simple and fast installation:
- Extremely durable:
- Easy to maintain:
- Huge options:

Maintenance Guidelines

Vacuuming is the most important cleansing procedure. Effective Vacuuming Prevents soil from spreading through the carpet. Correct and regular maintenance will increase the lifespan of a carpet and also help to maintain ins appearance. Cleansing should be proportional to the amount of soiling to which the carpet is subjected. A clean carpet is along wearing carper, therefore you cannot vacuum it too much. If using an upright vacuum cleaner with rotating beater branded brush, ensure that it is higher setting to reduce possible fuzz.

Rearranging furniture periodically changes the traffic pattern, allowing the carpet to wear more evenly. Technically carpet pigment have never been better, but colors can fade. If possible, the carpet should be protected from intense, direct sunlight. To reduce soiling and wear in high traffic area, place walk-off mats at all entrance. These must be cleaned and rotated regularly.

Data Parameters

Style Name	Style Art
Construction	Multi level Loop Graphics
Yarn Content	100% PP
Dry Method	Solution Dyed
Machine Gauge	1/10
Stitches	11 per inch
Pile Weight	576 Grams
Total Weight	3.45 (±0.10 kg/m^2)
Average Pile Height	4.5mm (±0.5mm)
Backing	Bitumen
Tile Size	50cm x 50 cm

Physical Properties

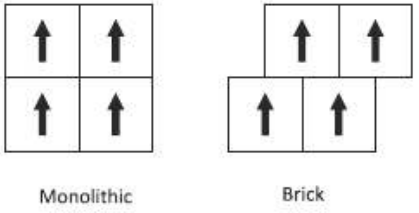

Dimensional Stability Testes	:	Passes (Both contraction and expansion)
Color Fastness	:	Passes Light Test-AATCC 16E Rating 4
Tuft Blind	:	Passes CNS 1359-62.7KGF
Flamability Pile Test	:	Passes D.O.C FF1-70 7 of 8 Pass
Wear Resistance	:	Passes (Abrasion -CNS 13595-9>40mg)
Wear Classification	:	Heavy Duty
Anti Static	:	Passes Static Load CNS 13954-7 10.2% 24hr Recovery

Disclaimers

1. According to international Carpet manufactured norms color may differ from dye lot to dye lot within tolerance.
2. Please take note of the day lot number on the cartons before installing the tiles.
3. Recommended laying of Carpet tiles : Checkered board pattern.
