No Worry Floor.
The flooring that gives you nothing to worry about.

Floor$_2$O with its 100% Water Protection Technology is the safest bet when it comes to everyday maintenance.You dont have to worry about your floor atall, for example if you spill a drink or cause water spillages.

Cappuccino Walnut #6022
Refined

The floor that combines the best

Floor which is Laminated with the Goodness of Satisfaction.

Floor$_2$o is made up of 4 layers, the core is made of ESCT Extra Strong Coreboard Technology which has a distinctive black colour.
The Top Design layer is the natural wood effect & colours which makes the flooring attractive. It is a High Definition picture of wood that is printed on the surface of the floor to give u the warmth of wood under your feet.
The AC5 Surface Shield which is a transparent overlay on top of the flooring protects it against wear and tear is the best in the class and can withstand traffic for a lifetime.
The bottom layer, a barrier layer, stops humidity and dampness and prevents the flooring from deforming.
The Special Coating of Aqua Protect on the edges makes sure that the moisture doesn't seep in, keeping your floor as new for years to come.
The top layer covers the design layer with α-Al2O3 - which is the second hardest substance in the world and acts as a transparent protective layer, For our Floor$_2$o collection we use AC5.
The protective and design layer is pressed on the ESCT Extra Strong Coreboard under very high temperature and pressure. While laminating the layers together to make a floorboard, the top texture of the flooring matches with the wood grain in the design layer, giving it 100% Natural look and Feel. The high definition & refined printing process also means that it's very hard to tell the difference between the picture and the real wood. Lamiwood is also eco-friendly as the core of the flooring is made out of the waste or recycled wood, so u can have your flooring without immolating trees. In an extension of giving you a wood look, Lamiwood flooring is also worry-free and most durable flooring solution for you.

Your

Benefits

at a glance

Warranty
All Lamiwood laminate floors are put through a series of tests to comply with the international standards, that is why we are able to give you a protracted residential warranty with all the products and limited commercial warranty for a few (detailed terms of guarantee: www.lamiwood.in).

Stain Proof And Imprint Resistant
Whether its red wine, domestic liquids, or any kind of oil , whatever you spill - don't panic; everything can be easily cleaned and removed from Lamiwood floors. Our Floors are also abrasion-proof, strong and durable.

Earth-friendly
All Lamiwood floors are environmentally friendly as the core of the flooring is made out of the waste or recycled wood, so u can have your flooring without immolating trees ensuring peace of mind for you – and protection of our environment.

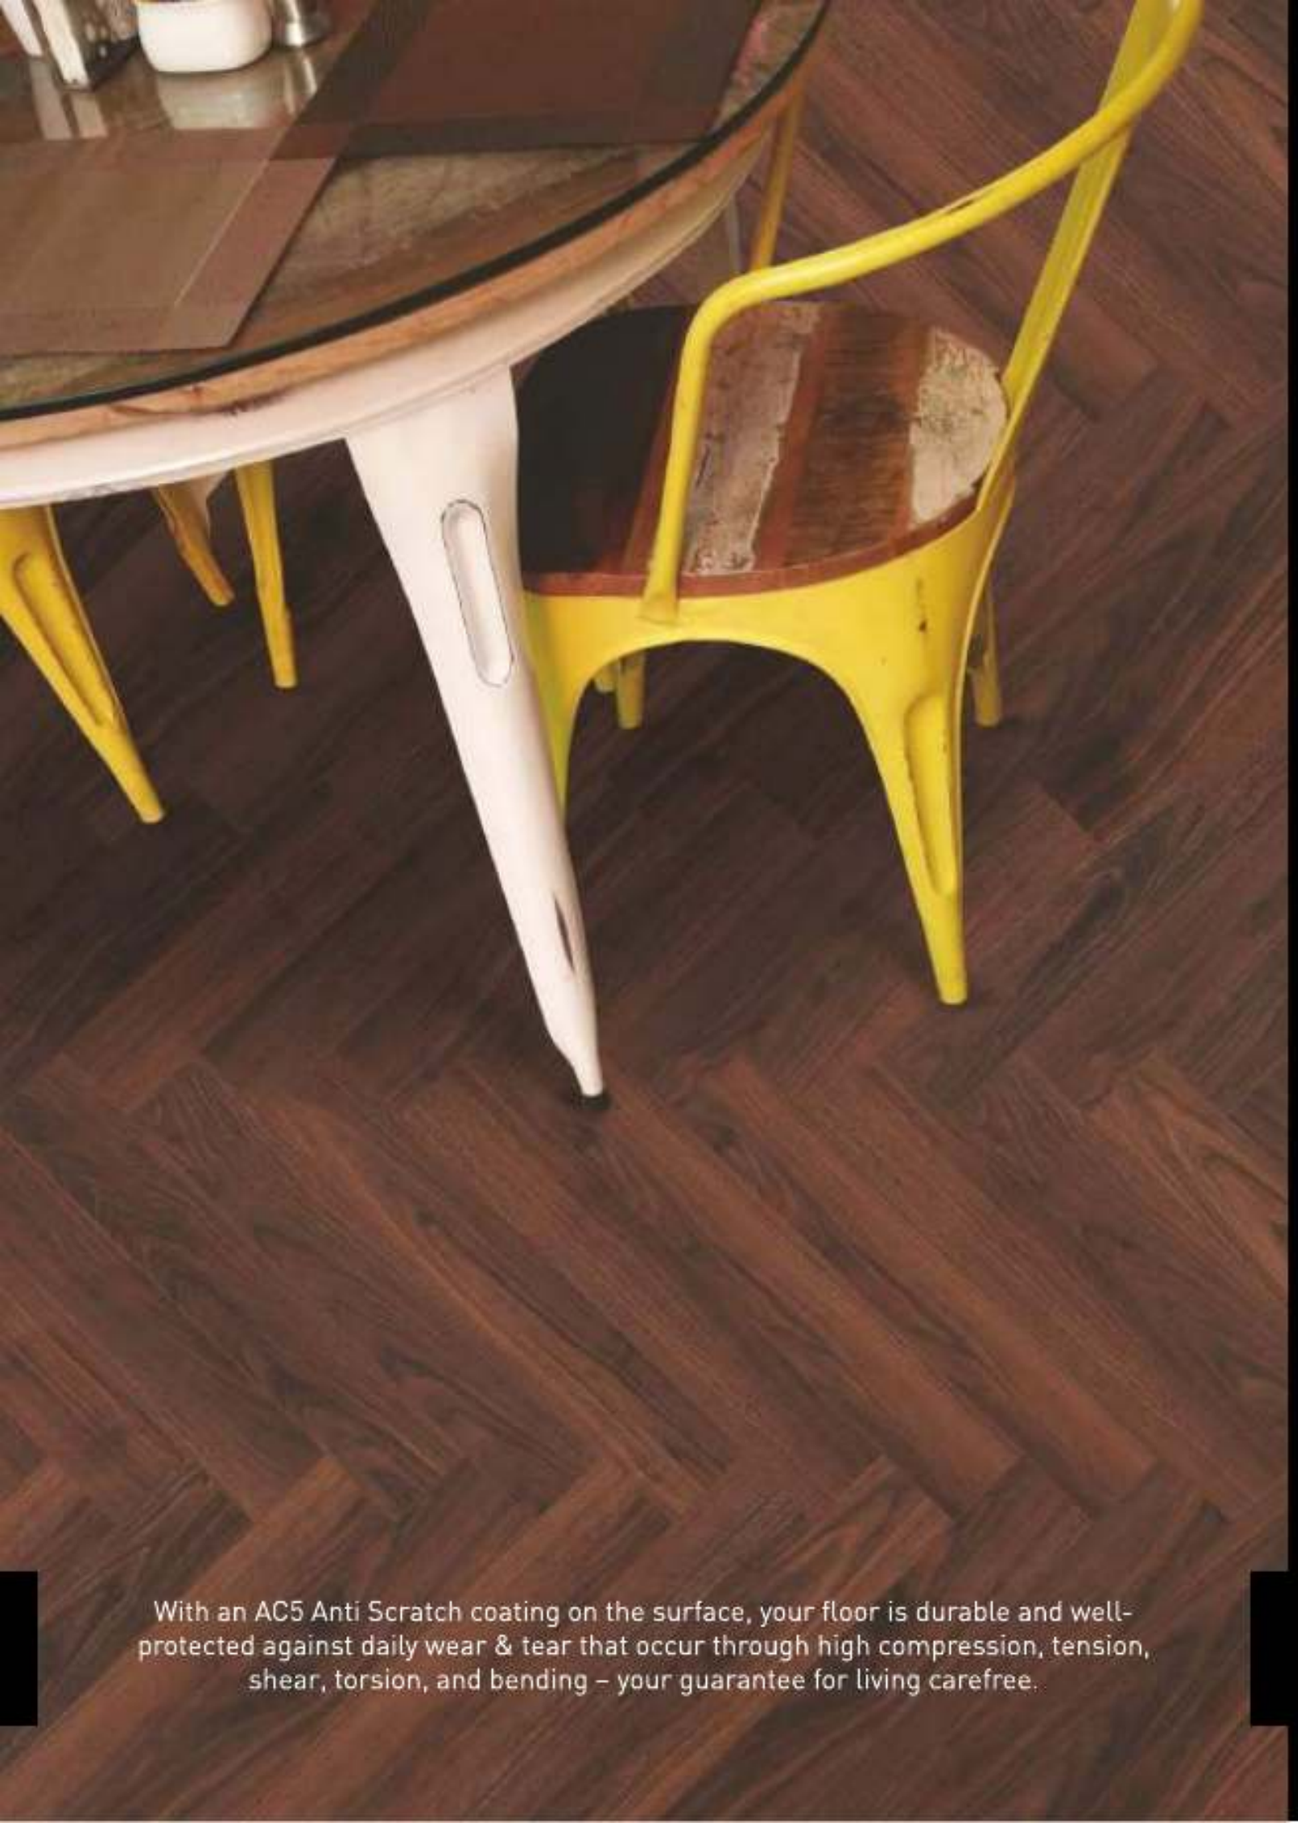

Your flooring should be always as clean as possible and free of any kind of bacteria - this is a major concern you. A Lamiwood B.F. C Bacteria Free Coating stops the growth of any kind of bacteria on your flooring and guarantees you the peace of mind that only comes from a healthy environment.

Anti-static Flooring
Lamiwoods Anti-Static floors protect you against electrical shocks. Our Flooring remains Anti-Static throughout its life and use. In addition, lamiwood floors are really easy to clean as they do not attract dust and dirt at all and therefore will remain clean by just moping the floors occasionally.

Embossed In Registered
While laminating the layers together to make a floorboard, we also make sure that the top texture of the flooring matches with the wood grain in the design layer, therefore our wooden flooring will also give the feel and touch of wood which features elegant contrasting and a thrilling multi-gloss effect that emphasises the depth of the structure that reflects the light differently. Meaning they flawlessly mimic the character of natural wood.

Scratch Protection
The top layer covers the design layer with α-Al2O3 - which is the second hardest substance in the world and acts as a transparent protective layer, this ensures a durable surface which will protect your floors from scratches which can occur through heavy use. With Scratch Protection, your flooring will be always-protected against everyday wear and tear & fine scratches.

Royal Walnut #6027
Refined

With an AC5 Anti Scratch coating on the surface, your floor is durable and well-protected against daily wear & tear that occur through high compression, tension, shear, torsion, and bending – your guarantee for living carefree.

Features of Floor$_2$O Collections

- 30 year Guarantee
- Waterproof ESCT Core
- Anti Bacterial
- ECO Friendly
- Anti Static Flooring
- Stain/Imprint Resistant
- Authentic Embossed
- Abrasion Class AC5
