HERRINGBONE PLANKS

Every Pattern Preserves A Legacy

Some designs are created to follow trends. Others are crafted to outlive them.
Inspired by timeless craftsmanship and the enduring beauty of natural wood, Manuscript 8 Herringbone is a celebration of refined design. Much like a treasured manuscript that preserves stories through generations, every plank reflects authenticity, character, and understated luxury.
Its distinctive herringbone pattern introduces rhythm, depth, and architectural elegance, transforming every space into an interior with lasting character.

Authenticity You Can See. Authenticity You Can Feel.

Great design is experienced through every detail. Featuring EIR Synchro Technology, the embossed surface aligns perfectly with the printed wood grain, ensuring every knot, texture, and grain line appears exactly where you expect it to. The result is an exceptionally realistic floor that looks and feels remarkably close to natural timber. Because true craftsmanship should be experienced, not just seen.

Designed With Purpose

170 mm Wide Planks

Generously proportioned planks create cleaner visual lines with fewer interruptions, allowing the natural wood character to flow beautifully across every space while enhancing the feeling of openness and understated luxury.

Signature Herringbone Pattern

A timeless design chosen for centuries in distinguished interiors, the herringbone layout brings movement, symmetry, and architectural elegance that instantly elevates any room.

Protect V-Groove

Precisely bevelled edges create subtle shadow lines that define each plank, adding depth, dimension, and an authentic appearance of traditional hardwood flooring.

Waxed Aqua Protection

The most vulnerable part of any laminate floor lies at its joints. Wax-sealed edges provide enhanced seam protection by helping to resist moisture penetration, preserving both performance and appearance in everyday use.

Crafted For Modern Living

Beautiful design deserves dependable performance. Manuscript 8 combines premium aesthetics with advanced engineering to ensure lasting durability without compromising on style.

- Authentic EIR Synchro Texture
- Elegant Herringbone Layout
- Protect V-Groove Technology
- Waxed Aqua Protection
- AC5 Abrasion Resistance
- Water Resistant Surface
- Anti-Bacterial Finish
- Easy Click Lock Installation
- Low Maintenance
- 20-YearResidential Warranty

Designed For Spaces With Character

Whether enhancing a contemporary residence, a luxury villa, a boutique hospitality project, or an architect-designed commercial space, Manuscript 8 Herringbone creates interiors defined by warmth, texture, and timeless sophistication.
