PREMIUM LAMINATED WOODEN FLOORING

8MM THICKNESS

STRAIGHT PLANKS

Every Grain Has A Story.

The finest interiors are defined long before the furniture arrives. They begin with a foundation that brings warmth, character, and a natural sense of balance. Inspired by the enduring beauty of wood, Lamiwood Manuscript 8 Plank is designed for interiors where simplicity becomes a statement. Every plank celebrates authentic grain patterns, generous proportions, and thoughtful craftsmanship, creating spaces that feel calm, inviting, and effortlessly sophisticated. Like the pages of a timeless manuscript, every surface tells its own story written by nature and refined through innovation.

Authenticity You Can See. Authenticity You Can Feel.

Natural wood is admired for its unique texture as much as its appearance. Manuscript 8 recreates both with EIR Synchro Technology, where the embossed surface follows the printed grain with remarkable precision. Every knot, grain line, and texture aligns exactly where it should, creating an authentic wood experience that can be appreciated with both the eye and the hand. Because true craftsmanship is something you experience, not simply observe.

Designed With Purpose

170 mm Wide Planks

Generously proportioned planks reveal more of the wood's natural character while reducing visual interruptions. The result is a seamless flow that creates interiors with greater openness, balance, and quiet luxury.

Protect V-Groove

Finely bevelled edges create subtle shadow lines that define every plank individually, adding architectural depth and the authentic appearance of handcrafted timber flooring.

Waxed Aqua-Protect Edges

Every floor performs best when its joints are protected. Wax-sealed edges reinforce every connection, helping reduce moisture penetration where floors are most vulnerable while supporting long-lasting performance.

Crafted For Everyday Living

Beautiful design deserves dependable performance. Every detail within Manuscript 8 has been engineered to preserve its appearance through the demands of modern living.

Designed For Contemporary Living

Whether it's a thoughtfully designed residence, a contemporary apartment, a luxury villa, or a premium commercial environment, Manuscript 8 Plank creates interiors that feel open, welcoming, and naturally refined.

Its understated character allows furniture, lighting, and architecture to work together in perfect harmony, creating spaces that remain relevant long after trends have passed.

The Lamiwood Difference

Every Lamiwood floor is created with one philosophy: authentic design supported by intelligent engineering.

Manuscript 8 Plank combines realistic wood aesthetics, precision manufacturing, and advanced surface technologies to deliver a flooring collection that is as dependable as it is beautiful, crafted for homes that are lived in every day and admired for years to come.

Technical Specifications

Authentic Design

- 1215x168x8mm
- 170 mm Wide Planks
- EIR Synchro Texture
- Protect V-Groove
- Deep embossed

Everyday Performance

- Waxed Aqua-Protect Edges
- AC5 Abrasion Resistance
- Water Resistant Surface
- Anti-Bacterial Finish
- Easy Click Lock Installation
